

WINNELLIEHYDRAULICS

THE *TECHNICAL SUPPLY* SPECIALISTS

Winnellie Hydraulics is a proudly local, family owned business, established by Richard Nicholson in Darwin in July, 1983.

Winnellie Hydraulics has built its reputation from the ground up as the technical supply specialist to the oil and gas and mineral processing industries.

Trusted Supply Chain Partners:

OIL & GAS

MINING

MARINE

Why Winnellie Hydraulics

- ✓ **Sustainable** – Second generation family business operating for over 35 years
- ✓ **Experienced** – Proven offshore, floating and onshore supply chain partner
- ✓ **Multi-Disciplined** – Supply, service, calibration and technical support geared for O&M
- ✓ **Responsive** – 25 minute average response time and same day delivery
- ✓ **Technical** – Provide technical advice and support, not just products
- ✓ **Traceability** – NATA, UKAS, Material certification and COC provided as standard
- ✓ **Flexible** – Operating, commercial and contract models
- ✓ **Deliver** – Excellent record meeting QSE targets company KPIs
- ✓ **Teamwork** – an integrated team environment working with the client
- ✓ **Community** – Equal opportunity employer and with regularly ATSI engagement

Originally specialising in the service of hydraulic components in the transport, commercial fishing and earth moving industries Winnellie Hydraulics grew with the rest of the Territory to develop a name for itself amongst the larger resource industries as they began to expand their presence around the Northern Territory.

We are proud that we now partner with Global companies such as **Alcoa, Conoco Phillips, ENI, Inpex, Newmont** and **Shell** to service their local requirements.

The company remains in the family with Max Nicholson (Richard's son) now serving as General Manager with a focus on maintaining the companies first class service levels and strong reputation in the industry. We are passionate about our business with innovation and continuous improvement at the forefront of our mission statement.

Winnellie Hydraulics continues to expand through exceeding customer expectations, and we are now working with an ever-growing customer base throughout Australia, PNG and Australasia.

Products

Valves & Process

- Ball valves – floating and trunnion mounted
- Bottom tank / sampling
- Butterfly – double and triple eccentric
- Check – swing, dual plate and axial flow
- Choke – severe service control and isolation
- Control – globe and ball design, general and severe service
- Diaphragm
- Double block and bleed
- Filters / Coalescers
- Gas metering skids
- Gate – flex wedge, slab gate and through conduit designs
- Globe
- HIPPS
- Knife gate
- Level gauges
- Line blind / spectacle
- Manifold and mono flange
- Needle
- Pinch
- Plug valves – lubricates and non-lubricated
- Pig launchers and receivers
- Solenoid
- Strainers – Y, Tee, basket, temporary and duplex designs
- Steam traps
- Subsea ball, check, gate & rotary disc valves
- Water bath heaters

Industrial Hoses

- Air/Water Hose
- Bunkering Hose
- LNG /Cryogenic Hose
- Offtake Loading Hose
- Process Chemical Hose
- General Hydraulic Hose
- Blow Out Preventer Hose
- Ultra High Pressure Hose
- Hose restraints
- Cable stockings

Filtration

- Oil
- Diesel
- Gas
- Water

Hydraulic Components

- Cylinders
- Directional valves
- Motors and pumps fixed displacement
- Motors and pumps, variable displacement

Industrial hydraulic tools

- Lifting cylinders
- Single and double acting pumps
- Bolting tools

Hydraulic torque tools

- Square drive torque wrenches
- Cassette drive torque wrenches
- Flange alignment tools
- Flange spreaders

Bolt tensioners

Pneumatic torque tools

Instrumentation

- Instrumentation valves
- Air filter regulators
- Stauff clamps
- Pressure and temperature gauges
- Instrumentation fittings
- Flow meters

Lubrications Equipment

- Material dispensing and lubrication systems
- Diaphragm pumps
- Air operated piston pumps
- Hose reels
- Dispensing guns

Rig Approved hose and fittings

- Rigboss Series Hose
- Ball/Plug Valves
- Drill water
- Potable water
- Dry Disconnect No-Spill Fittings
- Dry Disconnect No-spill Flanges
- Vent-Lock Camlocks
- Minsup Fittings
- Hammer Unions

Pumps

- Centrifugal
- Double diaphragm

Accessories

- Gaskets
- Stud bolts
- Grayloc clamp connectors
- Flange covers
- Insulation kits

Gates Power Transmission

- Fin fan belts

Accumulators

Customer Support

Winnellie Hydraulics has grown to become a leader in technical support (including hydraulics, pneumatics and gas process valves) to the Oil, Gas and mining Industry.

Our Future

We understand that our customers need somebody to take ownership of their problems and value our commitment to not only stand by and support what we sell with service capability but also sourcing, supplying and maintaining equipment outside our usual scope as well.

Within this process there's often several hands that form the critical chain of supply particularly when dealing with inter-state freight which we ultimately take responsibility for allowing our customers to concentrate on what they need to. Run their business!

Our reactive team understands the strict needs of our clients ensuring our technical capability, first class service levels and global supply chain are continuously improving to add value and reliability to these local, long term operations. We are always working with our customers to provide solutions for both upstream and downstream applications.

Our Products

Industrial Hydraulic Tools, Hydraulic Torque Tools, Hydraulic Components, Winch Hire, Gas Filtration, Oil Filtration, Diesel Filtration, Pneumatics, Pneumatics Torque Tools, Lubrication & Lubrication Equipment, Process and Severe Service Valves, Filters and Pipeline Accessories, Bolt Tensioning, Compressor Support, Accumulator, Hose Safety, Norgren Precision Line Solenoid Valves, Gates Power Transmission, Calibration & Certification.

Tool Hire

We have just released 'On-site Tool Audits', increased our hire fleet to include Enerpac and RAD bolting equipment and also calibration all backed up with the Winnellie Hydraulics service we've been providing for 30 years.

Bolting Tools; Cassette Wrenches, Square Drive Wrenches, Nutsplitters, Flange Tools & Spreaders. Lifting Tools; Hydraulic Jacks, 2 & 4 way manifolds, Air, Electric and Manual Pumps, Gauges, Control Valves, 2, 3, 4 & 8M Hoses and More
